

April 21, 2008

Mr. Bobby Kutteh
President and CEO
Crothall Services Group
955 Chesterbrook Blvd. Ste 300
Wayne, PA 19087

Dear Bobby,

As we approach the four year anniversary of our partnership with Crothall Services Group, I am pleased to acknowledge the success of the Facilities Management and the Environmental Services Department here at The Bloomsburg Hospital.

Since Crothall started their services here in 2004, Facilities Management has become more streamlined. The department includes plant operations management, environmental services, and recently, biomedical services with Kinetic. Through the leadership of Director Chuck Winters and Operations Manager Nicole Moser, the hospital is cleaner, the physical plant is better maintained, and the outside grounds look great! The department employees also look more professional and have an increased focus on customer service.

The Bloomsburg Hospital continually strives to better serve our patients and staff, and our partnership with Crothall Services Group helps us achieve this goal!

Sincerely,

Joseph M. De Vito
Vice President – Finance & Operations
Chief Financial Officer
